WHO WE ARE

The ESI Race Track Safety Service has four business verticals. These are Response Team and Vehicles, Responder training, Technical and Equipment support, and the newly created Equipment Rental Program.

RESPONSE TEAM AND VEHICLES

- The RTSS response staff is a group of hand-picked experienced track responders that have worked or currently are with national series or large track crews. Personnel are trained through their series classes, ESI courses and most carry SFI certifications in Fire/Rescue and/or Jump Medic Response.
- RTSS currently has three response vehicles that are fully equipped with fire suppression, rescue and recovery tools. Another fully equipped skid can be added onto any pickup truck to create a fourth response vehicle. Pickup trucks can be used for track cleanup utilizing the Super Duster and FOD Razor.

TECHNICAL & EQUIPMENT SUPPORT

- ESI Race Track Safety Services provides technical support and equipment to a number of series, sanctioning bodies, and tracks. During a race season, ESI supports track response training and has a presence at national race events. Included in this are trailers filled with personal safety gear and equipment that is setup on event weeks catering to the responder's needs.

WHAT WE OFFER

RESPONDER TRAINING

- ESI Race Track Safety Services supports the International Council of Motorsport Sciences (ICMS) program and was part of the group that initially established the Race Track Safety Program (RTSP). ESI personnel helped develop and have become SFI-certified instructors and travel throughout the US conducting SFI training programs for fire/rescue/EMS responders.

EQUIPMENT RENTALS

- ESI Race Track Safety Services provides rental and purchase of track equipment. Rental of larger expensive equipment allows tracks the use of this much needed equipment for events, without the need to purchase items that are only used a few times a season. ESI RTSS rents The Super Duster, Fire/Rescue pick-up skid inserts, FOD Razor, B/A Lift Beam, Holmatro rescue tools, Enforcer CAFS systems, extinguishers, hand tools, driver extraction devices and much more.

OUR SUPPORT

The RTSS Response staffing includes up to four-track responders per vehicle that include:

- Firefighter
- Medic/Firefighter
- Driver/Crew Chief

ESI RTSS has two fully equipped vehicles available to support various series and track services during special or national series events. These vehicles are pickup trucks that are equipped for:

- Fire suppression
- Extrication
- Driver extraction
- Medical intervention
- Straight-line tows
- Track clean up

Additionally, ESI RTSS has a Support Trailer that provides:

- Equipment and supply storage
- Changing areas for crew members
- Small galley for food and beverage
- Space to transport a golf cart and training props

ESI RTSS has a gas-powered Golf Cart for on-track transportation. This cart can be equipped with an Enforcer 10 CAFS fire suppression unit. LED emergency lighting is installed on the upper roof panels.

OUTDOOR TECHNICAL EMERGENCY CARE

B/A PRODUCTS CO.

PAX

The ESI Race Track Safety Services Division concept came from years of experience providing technical support and training services to on-track teams, dating back to 1990 when ESI supported the IndyCar/CART/Champ Car safety teams. ESI has usually been behind the scenes, supporting track services with safety equipment and training several safety teams throughout the years.

RENT OR PURCHASE

ESI's RTSS division offers four unique and reliable tools to keep your track prepared, whether it's cleaning up debris or staying rescue ready. All equipment is available for rent or purchase. Call 1-800-574-8228 for more information.

SUPER DUSTER

The **Super Duster** is designed for fast, efficient clean-up of liquid spills on racetracks. It spreads absorbent material in a consistent, even pattern and works with all types of absorbents, making it ideal for a quick response in high-performance environments. The unit holds up to 10 bags of absorbent and features powered up/down brushes that scrub material into the surface in both forward and reverse. An internal powered beater/auger bar, bin vibrator, and it comes equipped with a hitch for easy transport.

FOD-RAZOR

The **FOD-Razor** is an FAA-compliant, American-made solution that captures over 98% of small FOD from smooth to moderately coarse surfaces, even in wet conditions. With a 96-inch sweeping width and durable construction rated from -22°F to +131°F, it attaches easily to most vehicles and hitch types. Designed for portability and ease of use, it features shake handles for quick debris removal, a safety release mechanism, and flat or compact storage options.

FIRE/RESCUE SKID

Our track **Fire/Rescue Skids** are custom-built safety inserts that fit standard pickup truck beds, ensuring your track is ready for emergencies. Each skid features all-steel construction with aluminum diamond plate decking, tie-down connections, and ample storage for extinguishers, tools, and absorbent materials. All electronics are housed in a weatherproof box, and a durable rubber mat that protects the bed.

LIFT BEAM

The **Lift Beam** is designed for towing and recovering vehicles using recovery trucks. It helps distribute weight evenly during lifts, and its dual lifting points prevent inward collapse, ensuring a safer, more balanced recovery.

MAIN PRODUCTS

ESI's RTSS division offers a full range of products to keep your team prepared for anything that happens on the track, from fire suppression to rescue equipment. Call 1-800-574-8228 to learn more.

Fire Suppression

The Enforcer Line is available for both rental and purchase.

Enforcer Air 3

The Enforcer Air 3 is an extremely versatile 3-gallon portable firefighting system that utilizes high energy compressed foam technology with a dedicated refillable air tank, which requires no stand-alone charged air cylinders. Enforcer Air 3 can produce up to 60 gallons of finished foam.

Enforcer 10 CAFS

A unique small CAFS system that contains 10 gallons of foam solution and produces up to 200 gallons of finished foam. It also produces a foam structure that can stick to horizontal and vertical surfaces thus providing a vapor barrier between the fuel and air.

Enforcer 20 CAFS

The Enforcer 20 features a pre-mix capacity of 20 US gallons, producing up to 400 US gallons of finished foam. With a throw distance of 45 feet and a 5-minute discharge duration. Delivering quick and effective coverage.

Enforcer 30 CAFS

A versatile 30 gallon firefighting system that utilizes high-energy compressed foam technology and produces up to 600 gallons of finished foam.

Enforcer 60 CAFS

The Enforcer 60 holds 60 US gallons of pre-mix, generating up to 1,200 US gallons of finished foam. It offers a 45-foot throw distance and a 5-minute discharge duration, providing powerful and efficient performance.

FIREBULL Foam

Compatible with all regular and all standard Class A and Class B equipment. Excellent extinguishment through Rapid Cooling. GreenScreen Certified™ SilverFirefighting Product. UL Certified EXE 28900

Ansul Redline PK 20lb. Extinguishers

A portable fire suppression designed for Class B and C fires. These are filled with Purple K.

2.5 Gallon Pressurized Water Extinguishers

A pressurized extinguisher that can use water or foam.

Fire Suppression Tarp

Toxic Tarp Fire Suppression Blanket is a carbon fiber solution designed to give first responders an advantage in vehicle fires.

Medical

MED Boards

Carbon Fiber constructed with a thin and tapered shape. Body and leg straps, head cushions, and straps. Along with an included carry bag.

Pro-Lite Speedboard

The Iron Duck Pro-Lite Speedboard is a lightweight extrication device designed for rapid immobilization in confined spaces. Weighing under 6 lbs and made from HDPE plastic, making decontamination easier.

Vacuum Mattress Kit

Vacuum Mattress conforms to the body shape, filling voids and providing complete comfort during transport.

X-Pouch Kit

The durable, versatile X-POUCH secures necessary hand tools comfortably at the rescuer's side. **Kit Includes:** Milwaukee Adjustable Pliers, Milwaukee Cable Cutters, Milwaukee 6-in-1 Screwdriver, Ajax Strip & Peek Tool, Stanley® FatMax® Utility Knife w/ Spare Blades, SWAT-T™ Tourniquet, JYD™ Seatbelt Cutter, JYD™ Ringed Center Punch, EMT Trauma Shears, Streamlight ProPolymer HAZ-LO LED Flashlight, Tire Deflator/Inflators, x1 Spring Ring Center Punch

X-the-Bleed Trauma Kit

The X-the-Bleed Trauma Kit is a portable first-aid bleeding control kit. **Kit Includes:** Red JYD X-Pouch Bag, Chito SAM 100 Chitosan Hemostatic dressing 3" x 4′ (CT100-B-EN), SAMS Medical Bleeding Control Kit (KT901-V-EN), Medical Gloves, Medical Shears, Compressed Gauze, Permanent Marker, Emergency Bandage (6″ wide), SAM Medical XT Extremity Tourniquet Nylon Hi-Viz Orange, Instruction Card, LED Hand Light

A/B Trauma Kit

The A/B Trauma Kit is a portable first aid breathing and bleeding control kit. **Kit Includes:** Chito SAM100 Chitosan Hemostatic dressing, Compressed Gauze, LED Hand Light, Medical Sheers, Medical Gloves, Permanent Marker, Dynarex Resp-o2 Nasopharyngeal, I-gel Supraglottic, Airway, Blue X-Pouch

PAX Rescue-Boa

For safe and efficient driver extrication, the boa fits around the neck and the arms to develop a vertical lifting system. No pressure on the neck, and the hand holds provide lifting points.

Cervical Collar

An inflatable collar that can be easily adjusted by inflating or releasing air. It is designed to withstand extreme temperatures. Its compact, packable size ensures easy storage and convenience on the go.

Helmet Bladder System

The Helmet Removal System with Eject Bladder and air valve allows responders to quickly and safely remove race helmets while minimizing head and neck movement.

Rescue

Tow Ropes and Clevis

Includes flatline towing and roll over kits.

Hoop Bars

Used for flat-line towing on open wheel cars.

Halligan bar-36"

A 36" Halligan bar allowing you to easily break through doors, windows, walls and other barriers.

Vehicle Catch Cushion

Vehicle Catch Cushions are heavy-duty, air-controlled deflation devices that allow an overturned vehicle to gently settle back into an upright position when righted with a winch, wrecker, crane, or recovery rotator.

Sidewinder Jack+

The Sidewinder+ Jack was engineered to hold greater weights with mission-built features that work under extreme rescue conditions, specifically for use on automobiles and light-duty trucks.

Mini Cutter

Mini Cutter by Holmatro: compact, versatile, and immediately ready for action. This cordless tool makes any rescue set complete.

Standard Crash Bag Kit

Designed to start initial stabilization and allow for quick entry for patient assessment in any vehicle. **Kit Includes:** Milwaukee 6 in 1 Professional Multi-Bit Screwdriver, Milwaukee Cable Cutters, Milwaukee 10” Adjustable Wrench, Milwaukee 9.5″ Tongue and Groove Pliers, Ajax Strip and Peak Pry Tool, Medical Shears, Spring-Ring Window Punch, Junkyard Dog Industries Seatbelt Cutter, 4 Tire. Valve Deflators/Inflators, Lenox Hacksaw, x4 Spare 12” Hack Saw Blade, GlasMaster Windshield Saw & Center Punch, Kovenex® Rapid Response Rescue Blanket, Junkyard Dog Industries water-proof vinyl Carry Bag.

Diablo Blades

We offer a wide variety of Diablo blades, including reciprocating saw, circular, and oscillating options to fit your cutting needs. Popular choices include the 1-1/4” Amped Steel Demon Starlock carbide teeth oscillating blades, along with reciprocating saw blades available in 4”, 6”, and 9” sizes. We also carry the Diablo Steel Demon 5-7/8” x 30-tooth metal cutting circular saw blade with bushings. Each blade is built to deliver clean cuts and reliable performance when it matters most. Additional blade pack options are available.

Rubber Wheel Chock Sets

Quickly stabilize and lift a variety of items in any scenario.

Hazard Control

Oil Dry Containers

Storage unit designed to hold and dispense your oil-absorbing materials.

Obexion

The Obexion FR is a mobile-ready solution specifically designed for first responders to efficiently mitigate lithium battery risks. Engineered for extreme conditions, the container's interior can withstand temperatures exceeding 1700°C.

Rupture Seal

Instantly stop ruptures, leaks, or spills ranging from 5/32 to 6 inches on tanks, bladders, and more. Compatible with gasoline, diesel, and over 40 chemical families.

Storage

Unique Rear Cab Floor Bracket System

The bracket system is designed to hold either two extinguishers or one extinguisher and one oil dry dispenser at the center of the rear cab floor of a four-door pickup truck cab. The bracket is secured by an extension piece under the rear seat using the seatbelt bolts, thus eliminating any holes in the floor. Hook and Loop straps secure the items in the bracket. The finish is a black, textured powder coat.
***Denote cab manufacturer when ordering.**

WE ARE A

Milwaukee®

DEALER

We offer a wide range of Milwaukee tools and accessories, including the JYD Recip Saw Blade Holder. Designed to strap onto any reciprocating saw, it securely holds extra blades with durable hook and barb straps for quick and easy access.

TRAILER PRODUCTS

ESI's Race Track Safety Services Division offers a variety of smaller safety items designed to keep you protected on the track, along with RTSS-branded apparel like hats and shirts. Look for these items on our trailers.

Trailer Items

Fire Hoods

Protect your head, face, and neck from intense heat, smoke, harmful particles, and debris. We offer two options to keep you covered.

Protective Gloves

Keep your hands protected with gloves from trusted brands like HexArmor, Dragon Fire, and Holmatro. Designed for superior protection and durability, they guard against sharp objects, shattered glass, and extreme heat.

Protective Glasses

Global Vision and HexArmor glasses provide reliable eye protection from the sun and loose debris, keeping your eyes safe in any environment.

Various Radio Harnesses

A radio harness provides a secure, hands-free way to carry your radio, keeping it easily accessible during critical operations. Available in various designs.

K1 Shoes

K1 Shoes are durable, high-traction footwear designed for safety and comfort at the track.

Dragon Fire Glove Keeper

The Dragon Fire Glove Strap offers a convenient way to keep your gloves secure, easily clipping onto a belt loop.

Window Punch

A compact, reliable tool designed to quickly shatter vehicle windows during emergencies for rapid access or escape.

JYD Seatbelt Cutter

Easily cut through seatbelts with the JYD Seatbelt Cutter, perfect for quickly freeing trapped patients or escaping from an emergency situation.

Stickers and Patches

Customize your gear with stickers and patches from ESI Equipment Inc., its divisions, and Holmatro.

Trailer Items Continued

VP Small Engine Fuel

VP's premixed, ethanol-free fuel is designed to extend engine life, improve performance, and ensure reliable, easy starts. No mixing required, just pour and go.

Tourniquet and Holder

The SAM XT Holster is made from durable woven fabric and offers quick, easy access to your tourniquet. Lightweight and compact, it provides a snug fit and protects against the elements.

Cervical Collar

An inflatable collar that can be easily adjusted by inflating or releasing air. It is designed to withstand extreme cold and heat. Its compact, packable size ensures easy storage and convenience on the go.

FIREBULL Foam

Compatible with all regular and all standard Class A and Class B equipment. Excellent extinguishment through Rapid Cooling. GreenScreen Certified™ SilverFirefighting Product. UL Certified EXE 28900.

FIREBULL Extinguisher and Mount

FIREBULL Extinguishers deliver fast, effective fire suppression, just point and press. With a spray distance of up to 20 feet, you can tackle Class A, B, D, and K fires from a safe distance. Available with or without a mount.

X Pouch

Available as a complete kit or as a bag only.

ESI is also made up of several other key divisions, including JYD, Health & Safety, and Apparatus. Scan the codes below to see what our other divisions can do for you.
